

Save Our Helo!

Newport, Oregon is one of the highest catch ports in the US, and a huge recreational, merchant, research, and NOAA port. The United States Coast Guard has made the decision to move our rescue helicopter 90 miles away! This move will jeopardize lives. Please sign the petition to Senators Wyden and Merkley, and Representative Schrader, to keep our community safe. (This is the same petition that is being circulated on MoveOn.org)

Dear Senators Wyden and Merkley, and Representative Schrader,
Please use whatever means at your disposal to ensure Newport keeps its life-saving helicopter.

Name	Address	Zip code
