

Located in the City of Newport, Oregon, the Port of Newport's International Terminal is available as a multi-use shipping facility

One of only three deep draft ports on the Oregon Coast.

Cargo docks (30' draft with a mean tidal range of about 8 feet.) about 1.5 miles from the ocean entrance buoy with transit time from pilot boarding to vessel tie up at less than 60 minutes.

Turning basin located adjacent to the cargo berths is 900 by 1,200 feet wide.

- 870 linear feet of berthing for deep draft vessels.
- 17-acre site with a 3-acre staging area.
- Entrance bar dredged to 40'.
- Air draft under the highway bridge is 135 feet at low water.
- 9 acres of vacant industrial land with all utilities available for development.
